Engineer at MENADevs, specializing in training and evaluating Generative AI Models.

Work Experience

Software Engineer   Feb 2025 - Present
ZenHR | Amman, Jordan

Software Engineer   Oct 2024 - Feb 2025
ZenHR | Amman, Jordan

Software Engineer   Jul 2024 - Oct 2024
ZenHR | Jordan

Prompt Engineer   Feb 2024 - Feb 2024
MENADevs | Jordan

I held the role of Prompt Engineer, responsible for training and evaluating Generative AI Models.

Projects

University Graduation project Qudra Mobile Application   Oct 2024 - Jan 2025

Qudra Mobile Application is a full stack application built using react native (front-end), and back end (express js),
Typescript was used in both front end and back end code, to enable type safety and for better development experience,
The application also had an AI model hosted in an independent flash API which was able to predict sign language images
in to text.
Qudra is a platform which connects people from the deaf community with service providers,
The application has:
1. appointment system
2. Chat feature
3. Video upload feature
4. user management and authentication

Core Skills

Neural Networks, Artificial Neural Networks, Full-Stack Development, Project Management, Computer Vision, Java, C++,
Cascading Style Sheets (CSS), HTML, MySQL, SQL, Relational Databases, Databases, MySQLi,
Python (Programming Language), Software Development, Back-End Web Development, Node.js, Express.js,
Model-View-Controller (MVC)

Education

American University of Madaba - AUM   Jan 2021 - Jan 2025

Bachelor's degree Computer Science
GPA: 3.2 / 4

Languages

English *(Fluent)*

Certificates

The Ultimate MySQL Bootcamp: Go from SQL Beginner to Expert
Udemy

NodeJS - The Complete Guide (MVC, REST APIs, GraphQL, Deno)
Udemy

The Git & Github Bootcamp
Udemy

React Native - The Practical Guide
Udemy

Cutural exchange
Massachusetts Institute of Technology

Cyber Warriors Training
National Cyber Security Center (NCSCJO)
